Ornamental Nursery

Saint James City, Florida

Beautify Your Grounds

SANSEVERIA LAURENTI

New variety, very hardy, mottled green leaves with large yellow border, 2 to 4 leaves, 12 to 18 inches tall

— 60c —

Rare Introductory Offer Prices

Agave, a large botanical genus of the family Amaryllidaceae, chiefly Mexican, but occurring also in the southern and western United States and in central and tropical South America.

You can select the species of this plant you may desire from this collection or better still order one of each variety prepaid to you at a very reasonable cost. Plants are all well rooted stock and will average from 4 to 8 inches tall. Smaller plants, from 2 to 4 inches are desirable for miniature indoor gardens—and we will sell such plants by the thousands.

High Praise from Purchasers

You can have these plants growing in your house all win-
ter long. Note what Mr. Kelley, of Chicago says:

"I find that the plants we received from you did ex-
ceptionally well in the house the past winter."

And also (we quote) Mrs. R. L. McMillian, Chairman,
Flower Arrangement Class, Raleigh Garden Club Ral-
eigh, N. C.: "It gives me great pleasure to recommend
the Ornamental Nursery of Saint James City, Florida.
Flower lovers will find a dependable friend in the Or-
namental Nursery."

**Acanthocereus Petagonus
Cacti.** Florida native, much
desired for the odd shapes
it assumes in its growth
3 to 8 inches

— 25c —

Agave Spanish Bayonet
Very dark green colored
leaves that stand up
very stiff, 4 to 6 inches tall

— 25c —

You will please note — All of plants we list are postpaid
to you. Should any of the plants you receive from us not
live, we will replace them providing you notify us within two
weeks and you pay postage for replacement.
